ALCLEAN NE – TECHNICAL DATA SHEET

Description

Mildly alkaline, silicate free detergent powders. These products contain surfactants considered by our suppliers to be >80% biodegradable when tested by the OECD screening test which satisfies EEC directives 82/242 and 82/243.

ALCLEAN NE - A high quality soak cleaner

The principal uses of ALCLEAN NE are: -

- (1) Non-etch cleaning of aluminium prior to anodising.
- (2) Cleaning of steel components prior to phosphating.
- (3) Cleaning of non-ferrous components.

The Control of Substances Hazardous to Health Regulations 2002 (COSHH)

For a Safety Data Sheet on this product please contact Confederate Chemicals by telephone, or by e-mail at lab@confederatechemcials.co.uk

Instructions for use

ALCLEAN NE

Concentration : 12.5 - 50 gm/litre
Temperature : 50 - 75°C

Control

Titrate a filtered 10 ml sample of the ALCLEAN bath against 0.1N Hydrochloric Acid using methyl orange indicator (colour change yellow to orange). Titre x 1.68 = ALCLEAN concentration gm/litre.

Equipment

Mild steel is adequate.

Storage

Store in dry, remote from foodstuffs, in closed containers.

Disposal

Neutralise to within Water Board consent limit before discharge to sewer.
Note dissolved oils and grease will also be part of the consent limit.
