BEVERAGE MACHINE CLEANER – TECHNICAL DATA SHEET

Description

An alkaline detergent designed to quickly and effectively clean and remove Tannin stains from the operating chambers of a wide range of catering equipment. In particular BMC is used to clean coffee brewing machines. BMC uses safe oxygen bleach and does not contain Chlorine.

Product Code BMC

The Control of Substances Hazardous to Health Regulations 2002 (COSHH)

For a Safety Data Sheet on this product please contact Confederate Chemicals by telephone, or by e-mail at lab@confederatechemicals.co.uk

Instructions for use

Make up 50-100 gms/litre of BMC in water up to 50°C.

Introduce into the brewing urn or chamber to be cleaned and allow to stand for 15 minutes.

If possible clean any difficult areas with a brush.

Removable components and other suitable items can also be cleaned by soaking in a solution of BMC.

Following cleaning, rinse thoroughly before returning items or equipment into service.

Equipment

Most commonly encountered metals and plastics are suitable to be in contact with BMC solutions. Take care to limit contact with Aluminium.
