### CHLORINATED MACHINE DISHWASHING DETERGENT – TECHNICAL DATA SHEET

#### Description

Highly concentrated chelated alkaline detergent containing a Chlorine donor used in industrial dishwashing machines. HMCL is used particularly where control of Tannin stains is required.

**Product Code** HMCL

#### The Control of Substances Hazardous to Health Regulations 2002 (COSHH)

For a Safety Data Sheet on this product please contact Confederate Chemicals by telephone, or by e-mail at [lab@confederatechemicals.co.uk](mailto:lab@confederatechemicals.co.uk)

#### Instructions for use

Load trays as recommended by the machine manufacturer, removing food scraps before hand.  
Do not allow soiling to dry on before washing.

Typical use concentration 0.5 - 2.0% using an automatic dispenser.  
Temperature 55 - 60°C.

Use Confederate Chemicals Rinse Aid (RB) to promote rapid spot free drying.

Check the suitability of decorated wares to be machine dishwashed by test washing one item.

#### Equipment

At the recommended dilution HMCL has negligible effect on stainless steel and most plastics.  
Do not use on Aluminium, on diecastings or Zinc Plated items.
